Subject: Re: PCB air and wipe sample testing in April
Attachments: Fulcrum-Monroe-EPA-SnoHD QAPP for SVEC PCB Air and Wipe Sampling - Version 3.0 - 03272017.pdf

Good Afternoon,

Here is the updated QAPP plan that was developed based on the input received from the EPA. Please let me know if there is anything needed before we begin testing in April.

Good Afternoon,

I wanted to let everyone know the locations that we anticipate on sampling (air and wipe). I understand that we might be adding locations for wipe sampling, but this the direction we are starting with based on the prior agreement established. I am just trying to get the information needed for Ryan to start planning. Your feedback will also assist in accomplishing this goal.

I have already talked with Ryan at Fulcrum. He is updating his testing Quality Assurance Project Plan based on the feedback and questions posed by Kendall. He has indicated to me that the new plan will be provided by close of business Friday.
